

0 · CHECK YOUR PRINT

Measure the square below with a ruler. It must be exactly 30 × 30 mm. If not, your printer scaled the page — reprint at 100%.

HOW TO USE THIS SIZER

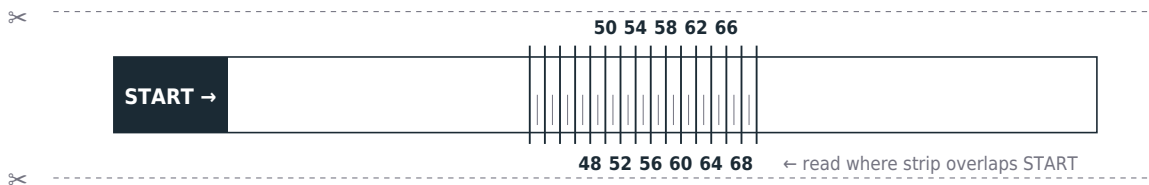

1. Print this page at 100%. Check the square →
2. Choose Method A (paper strip) or Method B (existing ring).
3. Note your EU size.
4. Pick that size at modumodu.eu/build.

Tip: measure at the end of the day, when fingers are largest.

Tip: if between two sizes, pick the looser one.

A · PAPER STRIP

1. Cut along the dashed lines.
2. Wrap snugly around the base of your finger.
3. Mark where the strip overlaps the START.
4. Read the EU number at the mark.

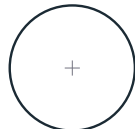

B · EXISTING RING

Place a ring you already wear on top of these circles. The matching size is the circle that aligns with the inside edge of your ring.

EU 50
US 5.25 · UK J½
ø 15.9 mm

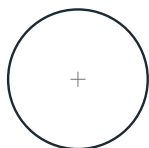

EU 52
US 6 · UK L
ø 16.6 mm
